

MY DUBAI

Proshat Sarablou

This feng shui expert talks about Dubai and changing the fate of people...

What is your best Dubai memory?

My four years here have given me memories worth preserving so it's difficult to be specific.

What is the one thing that you just love about Dubai?

Well, I really love the desert and enjoy nature, camping and the outdoors. I love walking along the beach.

What is your favourite holiday destination in the Middle East?

Even though I live here now, I can still say that Dubai is the perfect blend of cultural diversity, fast-paced life and relaxation, so it is a great holiday destination.

How long have you been in this field?

I have been a feng shui consultant for the past five years. I studied in Malaysia and graduated with a degree in the famous science from China. Now I have my own company that provides consultation to various businesses such as real estate, interior design, landscaping, architecture and also to individuals.

How did you start practising feng shui?

My aunt was living in the US and her Filipino friend suggested moving certain things around the house to channelise the positive energy. My aunt's fortunes changed. Her business improved and she moved to a bigger house. This story stayed with me. This was when I was 11, later at 17, I was studying Zen Yoga and my trainer enlightened me on the actualities of feng shui and how there can be negative and positive influences in the energy fields of houses.

Can you share an anecdote when feng shui worked wonders for someone?

A gentleman's business was doing well for five years but things started to go wrong when he moved into a new office. When I visited him, I saw the direction of his office was not right. I made a few changes here and there and now his business has turned around completely.

Can one actually get a job, have a baby or earn more money by following feng shui?

Yes, feng shui can activate your love life, health, wealth and career.

Three years ago there was this lady who could not have a baby, nor was she successful in adoption. I went to her place and activated a children's corner. I told her that a baby would come to this house very soon. Exactly one year after, she invited me to see her little daughter.

FAVE 5

- 1 **Holiday spot** - Bali
- 2 **Restaurant** - Steak House
- 3 **Hotel** - Al Maha
- 4 **Drink** - I love herbal tea
- 5 **Stage outfit** - Funky with a classic touch

Who is the one person in your field, you look up to?

I met a grand feng shui master, who was 85 years old at that time. He only used the application of direction and elements. I try to follow his way.
